# Mesh Gates

Our mesh gates are manufactured with 30x30 rectangular galvanised steel. Choose from one of our standard gate sizes (single 1000mm between posts or double driveway gates 3000mm between posts) or we can manufacture your gate to your unique specifications. Available in a large selection of premium powder coat colours or galvanised finished. All gates come supplied with the hinges, latches and fixings you will require to complete your installation.
